

Construction Zones are NO Trespassing Zones

To our Okemos and Meridian Township Community,

Your safety is our priority. While construction activities can be interesting to observe, they also pose significant hazards. For your safety, please avoid entering any school areas that are under construction. Construction sites contain many dangers, including ditches, holes, heavy equipment, and electrical equipment, which may not be immediately obvious.

Fencing with signage has been established to secure the perimeter of the jobsite. Please refrain from entering the construction site as any area within the fence has been designated as no trespassing.

Thank you for your cooperation.
