

## **Introduction to Strategic Planning 2020 – 2024 Opportunities for Input**

This fall, the Okemos Public Schools district is launching a strategic planning process to guide the focus of our district for the next four years. The diverse voices and many lenses of our community are critically important to this work.

The OPS Strategic Planning Committee welcomes your current thoughts about our district and insights into our district's future. We value our long, rich tradition of collaboration and the opportunity to create an intentional future for our district, together. In keeping with that tradition, you are invited to participate in three ways:

**COMMUNITY SURVEY** (Survey window: September 4 - 16, 2019)

Please respond to a brief electronic survey that has three important questions that will inform future planning.

**OHS STUDENT FORUM** (October 7, 11:25pm, 12:20pm) OHS Kiva

Members of the Okemos High School student body are invited to the Kiva during lunch to express their thoughts and ideas about what is most valued at OPS and the challenges that must be addressed for a vibrant future. Students are asked to pre-register in the main office so we can plan for their participation.

**COMMUNITY FORUM** (October 10, 7:00 – 8:00 PM) Senior Center

The Community Forum provides an opportunity to have a voice about important matters pertinent to OPS's future. It provides an opportunity to listen and speak to one another and those responsible for the strategic planning process. (More information will follow!)

Participation in these efforts will support the entire district as we work to achieve our shared mission, benefiting students, families, and our community.

Thank you! - John J. Hood, Superintendent
